Portfolio Project: Prompt 10 - Portfolio Progress Assessment

Prompt Overview: The objective of this prompt is to assess and reflect on what you will need to do to meet the requirements for the project, as well as elicit critical feedback about your prompt responses to date, in an effort to facilitate end-of-the-semester portfolio submissions and related presentations.

Directions: Read all the steps listed below completely and carefully before moving forward or asking for assistance. If you have only recently enrolled in the Bridge Academy, you will only be responsible for portfolio prompts 9 and 9b, in addition to any future prompts assigned as part of this project.

Prompt: Since the beginning of the year, you have been provided ample time to complete all assigned portfolio prompts. While absences or individual circumstances may have impeded your progress through this long-term portfolio project, it is up to you to make up for lost time outside of regular portfolio meeting times. In an effort to gauge your progress to date, as well as provide you with an idea of where you stand grade-wise, today's prompt will require you to submit your portfolio for a standing grade (out of a possible 500 pts) that will be updated once your final portfolio has been presented and submitted during the second week of January. Your portfolio will be assessed against the project rubric available on the course website, and is a major part of your overall semester grade.

Steps Toward Ensuring Success:

1. Print out all prompts you have completed or attempted (no matter what stage they are in).
2. Compare your printed work against the assigned prompts on the course website to ensure you have completed each of the previous prompts, and make note of any prompts your are missing.
3. If you have completed all prompts to date, now is the time to format your work to MLA standards if you haven't already done so (see sample MLA paper in "helpful tools & links" tab). You may want to also consult the project rubric to ensure you meet all requirements.
4. If you are still missing prompts, organize what you have in your portfolio, and use the period to complete any outstanding prompts before submitting your work.
5. When you are done, have a teacher check your portfolio for completion before returning your portfolio to the file cabinet to be graded in the days ahead.

Save Your Work: Be sure to email a copy of your work to yourself, and save your work to your network file/flash drive to avoid lost documents. There is no excuse for missing work!
